

NISCL Continuing Professional Development (CPD) Policy for Designation Holders

Effective Date: May 1, 2025

Updated CPD Policy Overview

As a Designation holder, you must maintain the currency of your designation through ongoing personal and professional development and enrich your functional and leadership aptitudes, skills, and knowledge by meeting them. Your commitment to this is tracked by you via maintenance of a personal record of your continuous professional development (CPD) completions. As such, we have updated our CPD policy to help you better meet these CPD requirements.

Starting on May 1, 2025, we will implement the following key changes:

1. Cycle Dates:

CPD cycles will now run May 1 – April 30 annually to align with the membership cycles.

2. 30 hours Required Annually

Our CPD requirements will transition to an annual time-based reporting system (i.e., we are discontinuing the three-year reporting cycle and the activity-based “points” reporting based on categories). You may fulfill this requirement through NISCL, CIPS, employer-based offerings, or other institutions and organizations providing CPDs (e.g., CPA, HRP, CPHR, CASE, ICD, etc.). All CPD activities from NISCL and CIPS are recognized for CPD maintenance as of May 1.

3. Leadership and Ethics CPDs

Another key change in our CPDs is the requirement to allocate a portion of your professional development to grow your leadership excellence and understanding current ethical standards. Leadership training and ethics are now mandatory components of CPD hours. These requirements ensure that all designation holders commit to continuously developing essential leadership skills and an ethical understanding of environmental procurement, human rights, fraud, bribery and corruption.

4. Annual Attestation

You must complete an annual attestation acknowledging your completion of the required 30 hours of CPDs. You are welcome to track your CPD through our system, but it is optional and not required to do so. This allows you to expand to multidimensional methods of earning your CPD hours. These changes are designed to make the CPD process more efficient and beneficial for you. This new approach will better support your professional growth and development.

Please note your 30-hour annual CPD cycle will also meet the CIPS CPD requirements.

Below is a table outlining these key changes in more detail and identifying the difference between this new NISCL CPD policy and our old CPD policy. Our new policy is designed to improve your overall CPD reporting experience and drive a continued dedication to functional and leadership growth amongst our community of designation holders annually.
